

HOLIDAY HOMEWORK 2016-2017
CLASS-VI

MATHS

- Draw a bar graph of different types of waste/garbage in your surrounding (It showed be in percentage. Like food items, households, water wastage)

HINDI अपने मोहल्ले के सफ़ाई कर्मचारी का साक्षात्कार लीजिए। उसकी कार्यप्रणाली तथा कार्य के कुल घंटों सहित उसके प्रति लोगों के व्यवहार, सहयोग आदि से सम्बंधित प्रश्न पूछ कर इस साक्षात्कार को लिखकर लाइए।

WATER
OR
GARBAGE
MANAGEMENT

SOCIAL SCIENCE

- How can garbage be converted into useful matters.
- Which country stands first in converting garbage and how?
- Prepare a Case Study.

SCIENCE

- Garbage or ~~waste~~ treatment is the problem of the day.
- Suggest some innovative ways to reduce generation of garbage. Begin from your house. See to it that garbage which comes out daily from your is reduced. How did you do it? What did you do?
- Make a detailed report. Click pictures also and attach.
- Make any two useful things from the waste i.e. best out of waste. (Suggested things are - Recycled paper, Wall Hanging) Ideas can be taken from internet.

ENGLISH

- Waste can be seen everywhere in your surroundings. But the most important part is how you manage it?
- Have this Survey done:
Take five houses (one yours and four of others i.e. your neighbours)
- Find out the following:
 - i. How do they manage their waste?
 - ii. What do they do with their ~~old~~ things? (Clothes, shoes, bags, accessories, carpets etc)
 - iii. What do they do with the left ~~over~~ food? Give a report of all the five houses on two sheets. Click pictures & paste to support your Work. (Bonus marks will be awarded if original pictures are clicked and pasted)
 - iv. Make pamphlets & distribute in your surroundings to spread awareness.
